To Life!™

Order #
FLEX-6570
For use in 6.5 and 7.0
tracheal tubes.

Order #
FLEX-7580
For use in 7.5 and 8.0
tracheal tubes.

The Parker Flex-It™ Directional Stylet is an articulating stylet that requires no pre-bending. Easy thumb action allows its curvature to be remotely adjusted during intubation, and its one-hand operation is designed to facilitate quick, accurate intubation. It is suitable for **oral** and **nasal** use.
