GLIDESCOPE®

INTRODUCING VIDEO BATON 2.0 LARGE

Complete Your GlideScope Collection

GlideScope Video Baton 2.0 Large is a reusable video baton that works with disposable, single-use stats to provide a consistently clear, real-time view of the airway.

Adaptable

The HDMI-like connector enables compatibility with GlideScope Go™ and the GlideScope Video Monitor (via a Spectrum™ Smart Cable).

Usable

Video Baton 2.0 Large features an updated flange for easier grip during stat disconnection and disposal and incorporates our Reveal™ anti-fog mechanism to resist lens fogging.

Cost-Effective

Video Baton 2.0 Large uses the same cost-effective, single-use disposable stats you may already be using.

To learn more, contact your local rep or visit glidescope.com/videobaton2
